

## David S. McDermott

235 S. Buckhout St. State College, PA 16801  
Cellphone: (484) 904-2099

|                   |   |
|-------------------|---|
| <b>EDUCATION</b>  | <i>Bachelor of Science</i> Computer Engineering, Electrical Engineering<br>The Pennsylvania State University, University Park, PA<br>College of Engineering & Schreyer Honors College<br>Majors: Computer Engineering, Electrical Engineering<br>GPA: 3.51/4.00<br>May 2019   |
| <b>HIGHLIGHTS</b> | Schreyer Scholar at The Pennsylvania State University pursuing dual degrees in computer and electrical engineering with concentrations in computer architecture and solid state engineering. Experienced in automated data processing, visualization, and VLSI in a professional setting and operating systems programming, silicon device fabrication, and computer architecture in an academic setting.   |
| <b>EXPERIENCE</b> | <i>Design for Test and Characterization Intern</i> May 2018 - Present<br>IBM, z/Systems, Poughkeepsie, NY <ul style="list-style-type: none"><li>Assisted in migration from single use Perl scripts to object oriented Python</li><li>Assisted in development of new test platform with Linux drivers and FPGA</li><li>Developed CP characterization routines that ran 40% faster than before</li><li>Developed interactive testing and visualization platform for characterization</li><li>Identified potential 3% reduction in dynamic power of latches for z/CP</li></ul> <b>Relevant Skills:</b> Python, Jupyter Notebooks, SQL, Neo4j, Cypher Query, VLSI<br><br><i>Visualization Intern</i> May 2017 - May 2018<br>The Pennsylvania State University Applied Research Laboratories, Synthetic Environments and Applications Laboratory, University Park, PA <ul style="list-style-type: none"><li>Supported development for existing visualization applications in an Agile team</li><li>Parallelized physics simulation and rendering engines on existing application</li><li>Developed several new data pipelines for databases, blockchains and Excel</li></ul> <b>Relevant Skills:</b> Java, OpenGL, C, SQL, SQLite, Apache Tomcat, Unity 3D, C#<br><b>Other Information:</b> Active US Secret Clearance |
| <b>PROJECTS</b>   | <i>Wristband Scanner</i> Spring 2018 - Present<br>The Pennsylvania State University, HackPSU <ul style="list-style-type: none"><li>Worked with a team of several other students to develop an IOT scanner</li><li>Developed C++ abstractions for Arduino to interface with RFID scanner chips</li><li>Developed PCB design using with multiple micro-controllers and planar antennae</li><li>Worked on developing architecture for networking with web server and local proxy</li></ul> <b>Relevant Skills:</b> C++, Arduino, PCB Design, Antenna Design<br><br><i>4KB SRAM Cache</i> Fall 2018<br>The Pennsylvania State University, CMPEN/EE 416 <ul style="list-style-type: none"><li>Worked with partner to develop 4KB SRAM Cache using 200nm TSMC process</li><li>Developed Python tools to optimize path length transistor sizing</li><li>Completed schematic, layout, and simulation using HSPICE</li></ul> <b>Relevant Skills:</b> VLSI, Cadence Virtuoso, Computer Architecture, Python   |
| <b>SKILLS</b>     | <b>Programming Languages:</b> Java, C, C++, x86 Assembly, MIPS Assembly<br><b>Scripting Languages:</b> Python, MATLAB, Shell (Bash), Perl, PHP<br><b>Development Tools:</b> GCC, GDB, Make, Visual Studio, Vim, MPLAB, Virtuoso<br><b>Design Tools:</b> Cadence Virtuoso, Autodesk EAGLE, NI Multisim<br><b>Databases:</b> DB2, SQL Server, MySQL, MariaDB, SQLite, Neo4j   |
